EXPERIENCE

Caffè Artigiano

2025.11-2026.07

Cafe & life Co.

2025.05-2025.10

Barista / Server / Customer service

Vancouver, Canada

- Communicated with customers and coworkers exclusively in English in a multicultural workplace.
- Delivered customer service while collaborating with multicultural team members.
- Resolved customer issues and maintained service quality under pressure.

Canadian Network for International Surgery (CNIS)

June 2025 – Jan 2026

Web-Developer Volunteer

Vancouver, Canada

- Automated the manual course enrollment workflow by integrating WooCommerce with Thinkific through a custom WordPress plugin.
- Implemented and successfully tested the enrollment automation process in a development environment.
- Collaborated with stakeholders to improve the organization's online course platform and digital learning workflow.

Mission Possible.

Mar 2025 – Apr 2025

Web-Developer Volunteer

Vancouver, Canada

- Maintained and enhanced the organization's HubSpot CMS website by resolving frontend/backend issues and improving website usability.
- Optimized SEO through metadata, image alt text, and content structure improvements.
- Improved website performance by identifying optimization opportunities related to loading behavior and accessibility.
- Collaborated with nonprofit stakeholders to deliver user-centered digital solutions.

MOTION M VFX Limited Co.

Feb 2023 – Dec 2023

Project Coordinator

Taipei City, Taiwan

- Coordinated multidisciplinary teams across design, production, and development to deliver commercial projects on schedule.
 - SAKURA Range Hood Product Advertisement Animation: coordinating animation, and design. ([Video](#))
 - Advantech TREK-60N AI Platform Promotional Animation: coordinating animation. ([Video](#))
 - Planned and designed the company's corporate website, collaborating closely with developers throughout the implementation.
- Handled exhibition participation for the International Animation and Film Market.

Nobility Advertisement Limited Co.

Animator

May 2020 – Nov 2021

Taipei City, Taiwan

- Managed and executed animation projects.
- Coordinated with cross-functional teams.
- Worked on concept advertisement projects.

PROJECTS

Vancastro Driving School | *Next.js, Node.js, Express, PostgreSQL, Prisma, Clerk, FullCalendar, QuickBooks (Sandbox)* | [Link](#)

- Team capstone — owned the frontend for a driving-school operations platform: public site plus student and instructor dashboards for booking, scheduling, and lesson management.
- Built responsive student/instructor interfaces and an availability-aware booking flow that factored in lesson length and travel time between Metro Vancouver cities.
- Implemented instructor calendar and scheduling UX with FullCalendar and Clerk-protected, role-based navigation.
- Collaborated on QuickBooks Online Sandbox invoicing from the instructor finance UI; payment recording remains in-app (not synced as QuickBooks Payments).

Plurk Styler | *Next.js, React, TypeScript, Zustand, Prisma, NextAuth, Tailwind CSS, Radix UI* | [Link](#)

- Built a login-optional visual CSS editor that mirrors a Plurk profile preview so users can restyle timeline, posts, and dashboard via context menus—then export CSS ready to paste into Plurk.
- Owned end-to-end editor architecture: preview DOM + feature modules + central style store (registered / imported / manual) so only intentional edits ship in export, with special-case formatters for logo, timeline, and badges.
- Solved nested hit-testing for the custom logo layer (full-bleed preview shell vs. precise hotzone) so river, posts, and logo each open the correct menu without blocking each other.
- Implemented CSS import/export pipeline (shorthand expansion, draft persistence, shareable output) aligned to selectors verified against live Plurk, not generic page builders.

EDUCATION

Cornerstone International Community College of Canada

Web-Development Co-op Diploma

Vancouver, BC

April 2024 – May 2026

Shih Hsin University

Bachelor of Design in Digital Multimedia Arts

Taipei City, Taiwan

2019
